Work Experience

CometChat Inc   *Mumbai, IN*
Senior Software Developer   *Feb 2019 - Now*
- Responsible for building the backend and features to allow our users to use text chat, voice and video functionality for websites and apps across all industries.
- Implemented Caching to reduce the load on DB servers.
- Designed Webhooks Platform for exposing events (used Kafka).
- Implemented Payment Aggregator (ChargeBee).
- Implemented Redis clustering since it was the bottleneck once the load started to increase.
- Used Docker for sharing project cross team.
- Used ProxySQL as a Load Balancer for distributing traffic across DB servers.
- Peer code reviews.
- Optimizing MYSQL query performance.

Annet Technologies   *Mumbai, IN*
PHP Developer   *June 2018 - Feb 2019*
- Worked on few client projects mostly in Laravel and ReactJS.
- Added PHPUNIT testcases while developing.
- Configured Git Hooks to automate the testcase script during every merge.
- Learnt industry best practices for coding.
- Helped in renewing SSL certificates of domain.
